

## Next to you

Strophe

We talk and talk but we talk with cross purposes  
we walk and walk but we walk in different ways  
You love me, i love you too,  
but something inside me doesn't want it to be true

Ref:

What if it was never meant to be  
and the time we spent is nothing but a waste  
we know that it is now too late see  
you will find your heart in pieces next to you

Strophe

we look around, but our eyes do not meet.  
You lash around, but your hits don't hurt me deeply  
Something left us alone  
and so we have lost the control

Ref:

What if it was never meant to be  
and the time we spent is nothing but a waste  
we know that it is now too late see  
you will find your heart in pieces next to you

Strophe

do you remember the days when everything was easier?  
The plans we had, the dreams we've got, where have they been?

Where are they?

Where?

the time goes by, and it will never come back  
the youth grows old, and we should be a part of it.

.....

What if it was never meant to be  
and the time we spent is nothing but a waste  
we know that it is now too late see  
you will find your heart in pieces next to you

next to you
