

## **Flowers**

Give me all the flowers  
In all the different colours  
I will put them on my head  
I will throw them on our bed

We will live forever  
With all the flower on our bed  
With all the pink and blue flowers on our heads

Give me all the Flowers  
In all the different scents  
To me it seems  
Those flowers are heaven sent

We will forget  
And we will be happy  
With all the different scents  
In our head and on our beds

We will forget everything  
We will forget our names  
We will forget the way  
We came

With our flowers in our heads  
We will lay on our beds  
The whole day  
And finally forget
