

Hurt... (english)

My dear...

feel the fear.... (whispered)

Show me your fear,

I want your tears,

I need your pain,

Your just that vain.

want to let it hurt,

want you in the dirt,

take my crown,

take you down

Tell me what have you felt,

all that times that you knelt?

Tell me what have you felt,

When she hit you with the belt?

I want your cries,

I need you in ties,

I want it hard,

catch you off guard.

want to make you sob,

maybe with a crop,

get you in chains,

hit you with the canes.

Tell me what have you felt,

all that times that you knelt?

Tell me what have you felt,

When she hit you with the belt?

Show me you are weak,

I show you all the bleak,

I give what you can't take,

I need you just to break.

Show me your fear,
I want your tears,
I need your pain,
Your just that vain.

Tell me what have you felt,
all that times that you knelt?
Tell me what have you felt,
When she hit you with the belt?

So my dear
just whine
with fear
you are mine
to break
So
Give me what we need
And let me see you bleed (whispered)
