

A little story about cozy and gemuetlich

A little thing happened to me the other day. I was talking on the phone to my Irish friend Mary, and I told her, that I had been to an Italian Restaurant, and I said: "It wasn't very cozy."

Then Mary said to me: "Marion, what you mean is that this place wasn't comfortable enough to sit there for a longer time and have an extended meal."

Then all that was left for me to say was: Ähhh - yes, that was my point."

So that serves cozy and gemütlich!

Best regards,

Marion
