

Hot love night only with you

Hot love night only with you....

With you I am happy in a love.

I will touch you with my love for you.

Will feel your soft breasts

in my hand and tenderly

caress sweetly kiss.

My fingers wander over your beautiful body

and I feel your excitement

more and more it increases with me to you.

Then she took my limb in her hand

tenderly in her mouth and her tongue

circled my glans aroused

with excitement he got a feeling

as if my limb wanted to explode.

Then came the high point we had become

one felt each other in each other.

A firework of emotions erupted

in both of us exhausted

and happy we lay back and

mate next to each other.

Even today we stayed together

and loved some nights hot.
